| Suggested Distribution Of Theory Marks Using Bloom's Taxonomy |             |               |             |         |
|---|-------------|---------------|-------------|---------|
| Level   | Remembrance | Understanding | Application | Analyze |
| Weightage   | 30          | 30            | 20          | 20      |

NOTE : This specification table shall be treated as a general guideline for the students and the teachers. The actual distribution of marks in the question paper may vary slightly from above table.

### Course Outcomes

| At the | At the end of this course, students will be able to:                           |  |  |  |  |
|--------|--|--|--|--|--|
| C01    | Understanding the concept of the Spectrophotometry in Analysis                 |  |  |  |  |
| C02    | Basic knowledge of the proeprties of Chemical and excipients                   |  |  |  |  |
| C03    | Understanding of various drugs in single and combined dosage form              |  |  |  |  |
| C04    | Understanding the basic of Theoretical and Practical skills of the instruments |  |  |  |  |
