

Ph. D Entrance Test – 2023-24

April 14, 2024 | Sunday

English

Section-I

(Research Methodology)

Maximum Marks: 50

Note:

- Write only Option a/b/c/d in the given space against the question.
- Use Blue/ Black pen only.
- DO NOT write any thing on the question paper.

Attempt the following:

1.	. Identifying causes of a problem and possible solution to a problem is							
	a.	Field Study	b.	Diagnosistic study				
	c.	Action study	d.	Pilot study				
2.	Wh	rich of the following is not the method of Research	ch?					
	a.	Survey	b.	Historical				
	c.	Observation	d.	Philosophical				
3.	In	order to pursue the research, which of the following	ng is p	priorly required?				
	a.	Developing a research design	b.	Formulating a research question				
	c.	Deciding about the data analysis procedure	d.	Formulating a research hypothesis				
4.	The	e first step of research is						
	a.	Selecting a problem	b.	Searching a problem				
•	c.	Finding a problem	d.	Identifying a problem				
5.	Res	search can be classified as:						
•	a.	Basic, Applied and Action Research	b.	Philosophical, Historical, Survey				
				and Experimental Research				
	c.	Quantitative and Qualitative Research	d.	All the above				
6.	Fur	ndamental research reflects the ability to:	•					
•	a.	Synthesize new ideals	b.	Expound new principles				
	c.	Evaluate the existing material concerning	d.	Study the existing literature				
		research		regarding various topics				
7.	Au	thenticity of a research finding is its:						
	a.	Originality	b.	Validity				
	c.	c. Objectivity		All of the above				
8.	A n	null hypothesis is						
	a.	when there is no difference between the	b.	the same as research hypothesis	1			
		variables						
	c.	subjective in nature	d.	when there is difference between				
				the variables				
9.	Wh	en a research problem is related to heterogeneou	s popu	ulation, the most suitable sampling				
	met	thod is						
	a.	Cluster Sampling	b.	Stratified Sampling				
	c.	Convenient Sampling	d.	Lottery Method				
10.	Fie	ld-work-based research is classified as						
	a.	Empirical	b.	Historical				
	c.	Experimental	d.	Biographical				

a. Data analysis	11.	Wh	nat is the first step in the research process?			
12. Qualitative research is associated with a. Emphasis on greater sample size b. Measurement of variables c. Unstructured, flexible and open methodology d. A structured, rigid methodology 13. What differentiates qualitative and quantitative research methodology? a. Sampling methods d. All of the above Analysis methods d. G. G. G. G. G. G. G.		a.	Data analysis	b.	Literature review	
a. Emphasis on greater sample size b. Astructured, rigid methodology a. Sampling methods b. Data collection methods c. Analysis methods b. Data collection methods c. Analysis methods d. All of the above Which number is wrong in the series 2, 6, 15, 31, 56, 93? a. Go b. Jal of the above Which number is wrong in the series 2, 6, 15, 31, 56, 93? a. Go b. Jal of the above 15. Which of the following is the odd one from the given alternatives? a. Driving b. Diving c. Swimming d. Satiling 16. Sampling is advantageous as it. a. Saves time b. Helps in capital-saving c. Increases accuracy d. Both (a) and (b) 17. Random sampling is helpful as it is. a. Reasonably accurate b. Free from personal biases c. An economical method of data collection d. All the above 18. Type-1 Error occurs if. a. the null hypothesis is rejected even though it is b. the null hypothesis is accepted even though it is false c. both the null hypothesis as well as alternative d. None of the above hypothesis are rejected 19. The data of research is. a. Qualitative only c. Both (a) and (b) Damaturgical interviewing is carried out through a. Quantitative only c. Gase study d. Role playing 21. A college wants to give training in use of Statistical Package for Social Sciences (SPSS) to researchers. For this the college should organize: a. Clinical research c. How Statistical Package for Social Sciences (SPSS) to researchers. For this the college should organize: a. Clinical research c. laboratory research d. More of the above research? a. Clinical research c. laboratory research d. To reduce the emphasis of single subject in research domain a. To over simplify the problem of research methodology 24. To test null hypothesis, a researcher uses: a. X b. L test		c.	Hypothesis testing	d.	Research design	
c. Unstructured, flexible and open methodology a. Sampling methods	12.	Qu	alitative research is associated with	ı		
13. What differentiates qualitative and quantitative research methodology? a. Sampling methods b. Data collection methods c. Analysis methods d. All of the above	-	a.	Emphasis on greater sample size	b.	Measurement of variables	
a. Sampling methods c. Analysis methods d. All of the above 4. Which number is wrong in the series 2, 6, 15, 31, 56, 93? a. 6 b. 31 c. 56 d. d. 93 15. Which of the following is the odd one from the given alternatives? a. Driving b. Diving c. Swimming d. Sailing 16. Sampling is advantageous as it a. Saves time b. Helps in capital-saving c. Increases accuracy d. Both (a) and (b) 17. Random sampling is helpful as it is a. Reasonably accurate c. An economical method of data collection d. All the above 18. Type-I Error occurs if a. the null hypothesis is rejected even though it is full the null hypothesis is accepted even though it is false c. both the null hypothesis as well as alternative hypothesis are rejected 19. The data of research is a. Qualitative only c. Both (a) and (b) 20. Dramaturgical interviewing is carried out through a. Debating c. Case study d. Role playing 21. A college wants to give training in use of Statistical Package for Social Sciences (SPSS) to researchers. For this the college should organize: a. Chooks and records are the primary sources of data in: a. Chinical research c. Iaboratory research c. Iaboratory research c. To over simplify the problem of research c. To retate a new trend in research d. To reduce the emphasis of single subject in research domain 24. To test null hypothesis, a researcher uses: a. X b. t test		c.	Unstructured, flexible and open methodology	d.	A structured, rigid methodology	
c. Analysis methods d. All of the above which number is wrong in the series 2, 6, 15, 31, 56, 93? a. 6 b. 31 c. 56 d. 93 15. Which of the following is the odd one from the given alternatives? a. Driving c. Swimming d. Sailing 16. Sampling is advantageous as it a. Saves time b. Helps in capital-saving c. Increases accuracy d. Both (a) and (b) 17. Random sampling is helpful as it is a. Reasonably accurate c. An economical method of data collection d. All the above 18. Type-I Error occurs if a. the null hypothesis is rejected even though it is true c. both the null hypothesis is rejected even though it is hypothesis are rejected 19. The data of research is a. Qualitative only c. Both (a) and (b) 20. Dramaturgical interviewing is carried out through a. Debating c. Case study d. Role playing 21. A college wants to give training in use of Statistical Package for Social Sciences (SPSS) to researchers. For this the college should organize: a. Lecture b. Seminar c. Lookers are the primary sources of data in: a. clinical research d. participatory research c. laboratory research d. participatory research c. To over simplify the problem of research c. To create a new trend in research methodology a. To test null hypothesis, a researcheruses: a. X b. test	13.	Wh	nat differentiates qualitative and quantitative resea	arch n	nethodology?	
14. Which number is wrong in the series 2, 6, 15, 31, 56, 93?	=	a.	Sampling methods	b.	Data collection methods	
a. 6 b. 31 c. 56 d. 93 15. Which of the following is the odd one from the given alternatives? a. Driving c. Swimming d. Sailing 16. Sampling is advantageous as it a. Saves time b. Helps in capital-saving c. Increases accuracy d. Both (a) and (b) 17. Random sampling is helpful as it is a. Reasonably accurate b. Free from personal biases c. An economical method of data collection d. All the above 18. Type-I Error occurs if a. the null hypothesis is rejected even though it is false c. both the null hypothesis as well as alternative d. None of the above 19. The data of research is a. Qualitative only b. Quantitative only c. Both (a) and (b) d. Neither (a) nor (b) 20. Dramaturgical interviewing is carried out through a. Debating b. Sampling c. Case study d. Role playing 21. A college wants to give training in use of Statistical Package for Social Sciences (SPSS) to researchers. For this the college should organize: a. Lecture b. Seminar c. Workshop d. Conference 22. Books and records are the primary sources of data in: a. clinical research c. laboratory research d. To reduce the emphasis of single methodology 24. To test null hypothesis, a researcher uses: a. To over simplify the problem of research c. To create a new trend in research d. To reduce the emphasis of single subject in research domain		c.	Analysis methods	d.	All of the above	
c. 56 d. 93 15. Which of the following is the odd one from the given alternatives? a. Driving b. Diving c. Swimming d. Sailing 16. Sampling is advantageous as it a. Saves time c. Increases accuracy d. Both (a) and (b) 17. Random sampling is helpful as it is a. Reasonably accurate b. Free from personal biases c. An economical method of data collection d. All the above 18. Type-I Error occurs if a. the null hypothesis is rejected even though it is true c. both the null hypothesis as well as alternative hypothesis are rejected 19. The data of research is a. Qualitative only c. Both (a) and (b) 20. Dramaturgical interviewing is carried out through a. Debating c. Case study d. Role playing 21. A college wants to give training in use of Statistical Package for Social Sciences (SPSS) to researchers. For this the college should organize: a. Lecture b. Seminar c. Books and records are the primary sources of data in: a. clinical research c. laboratory research d. participatory research c. laboratory research d. participatory research c. laboratory research d. To reduce the emphasis of single methodology 24. To test null hypothesis, a researcher uses: a. X b. test	14.	Wh	nich number is wrong in the series 2, 6, 15, 31, 56	, 93?		
15. Which of the following is the odd one from the given alternatives? a. Driving b. Diving c. Swimming d. Sailing	-	a.	6	b.	31	
a. Driving b. Diving c. Swimming d. Sailing 16. Sampling is advantageous as it	=	c.	56	d.	93	
c. Swimming d. Sailing 16. Sampling is advantageous as it a. Saves time b. Helps in capital-saving c. Increases accuracy d. Both (a) and (b) 17. Random sampling is helpful as it is a. Reasonably accurate b. Free from personal biases c. An economical method of data collection d. All the above 18. Type-I Error occurs if a. the null hypothesis is rejected even though it is true though it is false c. both the null hypothesis as well as alternative hypothesis are rejected 19. The data of research is a. Qualitative only b. Quantitative only c. Both (a) and (b) d. Neither (a) nor (b) 20. Dramaturgical interviewing is carried out through a. Debating b. Sampling c. Case study d. Role playing 21. A college wants to give training in use of Statistical Package for Social Sciences (SPSS) to researchers. For this the college should organize: a. Lecture b. Seminar c. Workshop d. Conference 22. Books and records are the primary sources of data in: a. Clinical research b. historical research c. laboratory research d. participatory research 23. What do you consider as the main aim of inter disciplinary research? a. To over simplify the problem of research b. To bring out holistic approach to research methodology 24. To test null hypothesis, a researcher uses: a. X b. test	15.	Wh	nich of the following is the odd one from the give	n alte	rnatives?	
16. Sampling is advantageous as it	=	a.	Driving	b.	Diving	
a. Saves time c. Increases accuracy d. Both (a) and (b) 17. Random sampling is helpful as it is a. Reasonably accurate b. Free from personal biases c. An economical method of data collection d. All the above 18. Type-I Error occurs if a. the null hypothesis is rejected even though it is true c. both the null hypothesis as well as alternative hypothesis are rejected 19. The data of research is a. Qualitative only c. Both (a) and (b) 20. Dramaturgical interviewing is carried out through a. Debating c. Case study d. Role playing 21. A college wants to give training in use of Statistical Package for Social Sciences (SPSS) to researchers. For this the college should organize: a. Lecture b. Seminar c. Workshop d. Conference 22. Books and records are the primary sources of data in: a. clinical research c. laboratory research d. participatory research c. laboratory research d. To reduce the emphasis of single methodology 24. To test null hypothesis, a researcher uses: a. I test	-	c.	Swimming	d.	Sailing	
c. Increases accuracy d. Both (a) and (b) 17. Random sampling is helpful as it is a. Reasonably accurate c. An economical method of data collection d. All the above 18. Type-I Error occurs if a. the null hypothesis is rejected even though it is b. the null hypothesis is accepted even though it is false c. both the null hypothesis as well as alternative hypothesis are rejected 19. The data of research is a. Qualitative only b. Quantitative only c. Both (a) and (b) d. Neither (a) nor (b) 20. Dramaturgical interviewing is carried out through a. Debating b. Sampling c. Case study d. Role playing 21. A college wants to give training in use of Statistical Package for Social Sciences (SPSS) to researchers. For this the college should organize: a. Lecture b. Seminar c. Workshop d. Conference 22. Books and records are the primary sources of data in: a. clinical research b. historical research c. laboratory research d. participatory research 23. What do you consider as the main aim of inter disciplinary research? a. To over simplify the problem of research b. To bring out holistic approach to research methodology subject in research domain 24. To test null hypothesis, a researcher uses: a. X b. t test	16.	Sar	mpling is advantageous as it			
c. Increases accuracy d. Both (a) and (b) Random sampling is helpful as it is a. Reasonably accurate b. Free from personal biases c. An economical method of data collection d. All the above 18. Type-I Error occurs if a. the null hypothesis is rejected even though it is b. the null hypothesis is accepted even though it is false c. both the null hypothesis as well as alternative by hypothesis are rejected. 19. The data of research is a. Qualitative only b. Quantitative only c. Both (a) and (b) d. Neither (a) nor (b) 20. Dramaturgical interviewing is carried out through a. Debating b. Sampling c. Case study d. Role playing 21. A college wants to give training in use of Statistical Package for Social Sciences (SPSS) to researchers. For this the college should organize: a. Lecture b. Seminar c. Workshop d. Conference 22. Books and records are the primary sources of data in: a. clinical research b. historical research c. laboratory research d. participatory research 23. What do you consider as the main aim of inter disciplinary research? a. To over simplify the problem of research b. To bring out holistic approach to research c. To create a new trend in research d. To reduce the emphasis of single methodology subject in research domain 24. To test null hypothesis, a researcher uses: a. X b. t test				b.	Helps in capital-saving	1
17. Random sampling is helpful as it is a. Reasonably accurate b. Free from personal biases c. An economical method of data collection d. All the above 18. Type-I Error occurs if a. the null hypothesis is rejected even though it is b. the null hypothesis is accepted even though it is false c. both the null hypothesis as well as alternative hypothesis are rejected 19. The data of research is a. Qualitative only b. Quantitative only c. Both (a) and (b) d. Neither (a) nor (b) 20. Dramaturgical interviewing is carried out through a. Debating b. Sampling c. Case study d. Role playing 21. A college wants to give training in use of Statistical Package for Social Sciences (SPSS) to researchers. For this the college should organize: a. Lecture b. Seminar c. Workshop d. Conference 22. Books and records are the primary sources of data in: a. clinical research b. historical research c. laboratory research d. participatory research 23. What do you consider as the main aim of inter disciplinary research? a. To over simplify the problem of research d. To bring out holistic approach to research c. To create a new trend in research d. To reduce the emphasis of single methodology subject in research domain 24. To test null hypothesis, a researcher uses: a. X b. t test		c.	Increases accuracy	d.		
c. An economical method of data collection d. All the above 18. Type-I Error occurs if	17.	Raı	ndom sampling is helpful as it is	I		
c. An economical method of data collection d. All the above 18. Type-I Error occurs if		a.	Reasonably accurate	b.	Free from personal biases	
a. the null hypothesis is rejected even though it is b. the null hypothesis is accepted even though it is false c. both the null hypothesis as well as alternative hypothesis are rejected 19. The data of research is a. Qualitative only c. Both (a) and (b) Doramaturgical interviewing is carried out through a. Debating c. Case study Debating c. Case study Debating Debating Case study Debating Case study Debating Case study Debating Case study Debating Debating Case study Debating Debating Debating Debating Debating Debating Case study Debating Deb		c.	An economical method of data collection	d.		
a. the null hypothesis is rejected even though it is b. the null hypothesis is accepted even true though it is false c. both the null hypothesis as well as alternative hypothesis are rejected 19. The data of research is a. Qualitative only b. Quantitative only c. Both (a) and (b) d. Neither (a) nor (b) 20. Dramaturgical interviewing is carried out through a. Debating b. Sampling c. Case study d. Role playing 21. A college wants to give training in use of Statistical Package for Social Sciences (SPSS) to researchers. For this the college should organize: a. Lecture b. Seminar c. Workshop d. Conference 22. Books and records are the primary sources of data in: a. clinical research c. laboratory research d. participatory research 23. What do you consider as the main aim of inter disciplinary research? a. To over simplify the problem of research b. To bring out holistic approach to research c. To create a new trend in research d. To reduce the emphasis of single subject in research domain 24. To test null hypothesis, a researcher uses: a. X b. t test	18.	Tyı	pe-I Error occurs if	l		
hypothesis are rejected 19. The data of research is	-		the null hypothesis is rejected even though it is	b.		
a. Qualitative only c. Both (a) and (b) d. Neither (a) nor (b) 20. Dramaturgical interviewing is carried out through a. Debating c. Case study d. Role playing 21. A college wants to give training in use of Statistical Package for Social Sciences (SPSS) to researchers. For this the college should organize: a. Lecture b. Seminar c. Workshop d. Conference 22. Books and records are the primary sources of data in: a. clinical research c. laboratory research d. participatory research 23. What do you consider as the main aim of inter disciplinary research? a. To over simplify the problem of research b. To bring out holistic approach to research c. To create a new trend in research d. To reduce the emphasis of single subject in research domain 24. To test null hypothesis, a researcher uses: a. X b. t test	-	c.	• •	d.	None of the above	
c. Both (a) and (b) d. Neither (a) nor (b) 20. Dramaturgical interviewing is carried out through	19.	The	e data of research is	I.		
20. Dramaturgical interviewing is carried out through a. Debating c. Case study d. Role playing 21. A college wants to give training in use of Statistical Package for Social Sciences (SPSS) to researchers. For this the college should organize: a. Lecture b. Seminar c. Workshop d. Conference 22. Books and records are the primary sources of data in: a. clinical research c. laboratory research d. participatory research 23. What do you consider as the main aim of inter disciplinary research? a. To over simplify the problem of research b. To bring out holistic approach to research c. To create a new trend in research d. To reduce the emphasis of single subject in research domain 24. To test null hypothesis, a researcher uses: a. X b. t test	=	a.	Qualitative only	b.	Quantitative only	
a. Debating c. Case study d. Role playing 21. A college wants to give training in use of Statistical Package for Social Sciences (SPSS) to researchers. For this the college should organize: a. Lecture b. Seminar c. Workshop d. Conference 22. Books and records are the primary sources of data in: a. clinical research c. laboratory research d. participatory research 23. What do you consider as the main aim of inter disciplinary research? a. To over simplify the problem of research b. To bring out holistic approach to research c. To create a new trend in research d. To reduce the emphasis of single subject in research domain 24. To test null hypothesis, a researcher uses: a. X b. t test	=	c.	Both (a) and (b)	d.	Neither (a) nor (b)	
c. Case study d. Role playing 21. A college wants to give training in use of Statistical Package for Social Sciences (SPSS) to researchers. For this the college should organize: a. Lecture b. Seminar c. Workshop d. Conference 22. Books and records are the primary sources of data in: a. clinical research c. laboratory research b. historical research c. laboratory research d. participatory research 23. What do you consider as the main aim of inter disciplinary research? a. To over simplify the problem of research b. To bring out holistic approach to research c. To create a new trend in research d. To reduce the emphasis of single subject in research domain 24. To test null hypothesis, a researcher uses: a. X b. t test	20.	Dra	amaturgical interviewing is carried out through			
21. A college wants to give training in use of Statistical Package for Social Sciences (SPSS) to researchers. For this the college should organize: a. Lecture b. Seminar c. Workshop d. Conference 22. Books and records are the primary sources of data in: a. clinical research b. historical research c. laboratory research d. participatory research 23. What do you consider as the main aim of inter disciplinary research? a. To over simplify the problem of research b. To bring out holistic approach to research c. To create a new trend in research d. To reduce the emphasis of single methodology subject in research domain 24. To test null hypothesis, a researcher uses: a. X b. t test		a.	Debating	b.	Sampling	
researchers. For this the college should organize: a. Lecture b. Seminar c. Workshop d. Conference 22. Books and records are the primary sources of data in: a. clinical research b. historical research c. laboratory research d. participatory research 23. What do you consider as the main aim of inter disciplinary research? a. To over simplify the problem of research b. To bring out holistic approach to research c. To create a new trend in research d. To reduce the emphasis of single subject in research domain 24. To test null hypothesis, a researcher uses: a. X b. t test	-	c.	Case study	d.	Role playing	
a. Lecture c. Workshop d. Conference 22. Books and records are the primary sources of data in: a. clinical research c. laboratory research d. participatory research 23. What do you consider as the main aim of inter disciplinary research? a. To over simplify the problem of research b. To bring out holistic approach to research c. To create a new trend in research d. To reduce the emphasis of single subject in research domain 24. To test null hypothesis, a researcher uses: a. X b. t test	21.	Αc	college wants to give training in use of Statistical	Packa	age for Social Sciences (SPSS) to	
c. Workshop d. Conference 22. Books and records are the primary sources of data in: a. clinical research c. laboratory research 23. What do you consider as the main aim of inter disciplinary research? a. To over simplify the problem of research b. To bring out holistic approach to research c. To create a new trend in research c. To create a new trend in research d. To reduce the emphasis of single subject in research domain 24. To test null hypothesis, a researcher uses: a. X b. t test		rese	earchers. For this the college should organize:			
22. Books and records are the primary sources of data in: a. clinical research b. historical research c. laboratory research d. participatory research 23. What do you consider as the main aim of inter disciplinary research? a. To over simplify the problem of research c. To create a new trend in research c. To create a new trend in research methodology 24. To test null hypothesis, a researcher uses: a. X b. t test		a.	Lecture	b.	Seminar	
a. clinical research c. laboratory research d. participatory research 23. What do you consider as the main aim of inter disciplinary research? a. To over simplify the problem of research c. To create a new trend in research methodology 24. To test null hypothesis, a researcher uses: a. X b. historical research participatory research To bring out holistic approach to research research to reduce the emphasis of single subject in research domain		c.	Workshop	d.	Conference	
c. laboratory research d. participatory research 23. What do you consider as the main aim of inter disciplinary research? a. To over simplify the problem of research c. To create a new trend in research methodology 24. To test null hypothesis, a researcher uses: a. X b. test	22.	Boo	oks and records are the primary sources of data in	n:		
23. What do you consider as the main aim of inter disciplinary research? a. To over simplify the problem of research b. To bring out holistic approach to research c. To create a new trend in research methodology d. To reduce the emphasis of single subject in research domain 24. To test null hypothesis, a researcher uses: a. X b. t test		a.	clinical research	b.	historical research	
a. To over simplify the problem of research c. To create a new trend in research methodology 24. To test null hypothesis, a researcher uses: a. X b. To bring out holistic approach to research research d. To reduce the emphasis of single subject in research domain t test		c.	laboratory research	d.	participatory research	
c. To create a new trend in research d. To reduce the emphasis of single subject in research domain 24. To test null hypothesis, a researcher uses: a. X b. t test	23.	Wh	nat do you consider as the main aim of inter discip	olinar	y research?	
methodology subject in research domain 24. To test null hypothesis, a researcher uses: a. X b. t test		a.	- 1 -	b.	research	
24. To test null hypothesis, a researcher uses: a. X b. t test		c.	To create a new trend in research	d.		
a. X b. t test			•		subject in research domain	
	24.	То		ı		
c. ANOVA d. factorial analysis		a.		b.		
		c.	ANOVA	d.	factorial analysis	

25.	Sec	cond step in problem formulation is			
	a.	Statement of the problem	b.	Understanding the nature of the problem	
	c.	Survey	d.	Discussions	
26.	Wł	nich one is called non-probability sampling?	1		
	a.	Quota sampling	b.	Cluster sampling	
	c.	Systematic sampling	d.	Stratified random sampling	
27.	Wł	nich type of graph is best suited for displaying car	tegori	cal data?	
•	a.	Line graph	b.	Scatter plot	
	c.	Histogram	d.	Pie chart	
28.	Wł	nat is the purpose of a line graph?			
	a.	To display the distribution of a continuous variable	b.	To represent proportions or percentages	
	c.	To compare multiple groups or categories	d.	To show relationships between two continuous variables	
29.	Wł	nat does the X-axis represent in a line graph?			
	a.	Independent variable	b.	Frequency or count	
	c.	Dependent variable	d.	Categories or groups	
30.	Wł	nich of the following is a commonly used softwar	e prog	gram for qualitative data analysis?	
	a.	SPSS	b.	Excel	
	c.	NVivo	d.	SAS	
31.	Da	ta Analysis is a process of?	1		
-	a.	inspecting data	b.	cleaning data	
22	c.	transforming data	d.	All of the above	
32.		e process of reviewing data is called	Ι.	5 5	
	a.	Data Analysis	b.	Data Breaching	
22	c.	Data Interpretation	d.	None	
33.		nongst which of the following is / are the true abo	_	-	
	a.	Describes associations within the data	b.	Modeling relationships within the data	
	c.	Answering yes/no questions about the data	d.	All of the mentioned above	
34.	Th	e process of quantifying data is referred to as	_•	-	
	a.	Decoding	b.	Structure	
6.5	c.	Enumeration	d.	Coding	
35.		JP : LIP :: BIRD : ?	T .	GD 1 GG	
	a.	BUSH	b.	GRASS	
0.5	c.	FOREST	d.	BEAK	
36.		e reasoning which would be helpful in finding ne	1	_	
	a.	Speculative	b.	Inductive	
27	C.	Deductive 1.5 have 1.5 have	d.	Analogical	
37.		ppose you reason as follows: If I spend 15 hours	•	•	
		n an A in the course. I will study research method		_	
		ll earn an A in the course. What type(s) of reason			
	a.	inductive reasoning neither inductive nor deductive reasoning	b.	deductive reasoning both inductive and deductive	
	c.	neither inductive nor deductive reasoning	u.	reasoning	
				reasoning	

38.	A11	I trucks are polluting vehicles" is given as false, the	nen w	hich of the following statements can	
		immediately inferred to be true?			
	a.	Some trucks are polluting vehicles	b.	Some trucks are not polluting	
		gome truens are personning versions		vehicles
